Geographic Area

Coles, Cumberland, Douglas. We are currently serving families that also live in Clark County and Effingham County. We will consider additional counties if we are able to effectively meet the needs of the family.

Service Facilitation provided for both adults and children.

Service Facilitators have an extensive knowledge of resources available to families within the local community and work closely with the family to insure needs are met. We also strive to maintain a good match in personality and work style between Service Facilitators and families served.

The mission of the Family Support Network is to unify individuals with disabilities and their families to advocate for funding, services, and community resources that strengthen and support the individual and the family directly by responding to their individual needs and empowering them to live in their own homes. The Family Support Network further seeks to ensure the continuation of all individual supports throughout the life span of the individual.
